

SKYLINE RANCH COUNTRY CLUB**PARK UP-DATES**

Office: Let's all welcome Maribel to Skyline Ranch Country Club office. Maribel has brought many years of experience and is a great asset to our team!

Mediacom: The office has had numerous phone calls informing us that they are receiving a bill from Mediacom for a service call. In the past the office has been able to get that charge removed, but they will not continue to remove the fee.

Just so you know, if your TV is not working and the technician comes out and only does a channel search on your TV to repair it, you the resident will be charged \$49.00. This does not mean the residence will be charged for all service calls. So, please if you are having an issue with your cable continue to call the office and we will do our best to help you with your issue.

**EXCITING NEWS!**

Skyline Ranch has taken steps forward with the hiring of an irrigation specialist to plan a new state of the art system for the golf course. The plans are almost completed.

In Conjunction Skyline has engaged a design/building company to visually improve the pond with a substantial

increase in capacity.

Both industry leaders have extensive resumes working with the leading architects in the industry, Nicolas Design, Greg Norman Design and Fazio Design, just to name a few.

So we ask your patience while the construction moves forward.

VETERANS DAY

The 11th Hour, of the 11th Day, of the 11th Month

The Armistice was signed and Veteran's Day was born.

Thanks to all our Skyline Veterans for your service.

Beginning **November 30th to December 11th**

Please drop off new, unwrapped toy donations to the **TOY BOX**

located in the Skyline Ranch Office

As in years past, please join us in bringing happiness and joy to this holiday season

Skyline undergrounding project looks at December completion

San Diego Gas & Electric Company's Skyline Ranch undergrounding project, which began in August of this year, is scheduled to be completed in December 2020.

SDG&E estimates that traffic delays on the 5.5 mile project may occur due to occasional lane reductions, temporary restrictions or lane closures required during construction. As part of these activities, temporary traffic control may be required along the area of interest.

There will be multiple construction locations and activities taking place simultaneously, with

work hours, traffic control measures, and noise restrictions for each area dictated by the appropriate local jurisdiction.

The project is part of the utility's "ongoing efforts to reduce wildfire risk and the impact of Public Safety Power Shutoffs (PSPS) during extreme weather conditions." SDG&E told The Roadrunner, "Once completed, the undergrounding work will enable community facilities to remain powered during PSPS events."
